## School Year 2023/2024 Starting School & Reception Screening

Dear Parent/Carer,

We are aware your child has started school this academic year and we hope that he/she is settling well. You may remember that your child had a series of health, development and growth assessments by the Health Visiting team during the first 3 years of their life. Health Visitors and School Nurses work together to provide Public Health services to your family from 0-19 years of age.

The School Nursing Service offers a wide range of family health services. We can offer support to you in areas such as:

- Sleep
- Toileting and continence
- Emotional and behavioural regulation
- Nutrition and healthy weight management

Every year we ask parents/carers of Reception aged children to complete a questionnaire which enables the School Nurse team to assess your child's health. We are then able to offer guidance and support in relation to any concerns that you may have.

Please click on the following link which will take you to this years Reception Screening Health Questionnaire.

<https://forms.office.com/e/qRjuhNdLEi>

If you have any difficulties accessing the link which hasn't resolved by copying and pasting into a different internet browser, please email [Rachel.andrews@nhft.nhs.uk](mailto:Rachel.andrews@nhft.nhs.uk) This link will be available for you to use until the 31<sup>st</sup> July 2024.

To help you think about your child's health needs, we have included some key child development questions below:

---

*Chair: Crisni Waring*

*Chief Executive: Angela Hillery*

*Trust Headquarters: St Mary's Hospital, London Road, Kettering NN15 7PW Tel: 01536 410141 Fax: 01536 452040*

Find us on Facebook and LinkedIn: Northamptonshire Healthcare NHS Foundation Trust

Please note the Trust is now using recycled paper as per the NHS National initiative to support sustainability

**MAKING A  
DIFFERENCE  
FOR YOU,  
WITH YOU**

- Is speech clear / can others understand them?
- Do they follow simple instructions?
- Are they able to make friends with other children?
- Will they leave you confidently and settle quickly?
- Can they concentrate on activities?
- Do they ask questions and want to learn new things?
- Can they use the toilet and wash their hands?
- Can they use a fork and spoon and drink from a cup independently?

### **Dental Health**

If your child is not registered with a dentist, please look at the NHS Choices Website <http://www.nhs.uk/Service-Search> for local practices that are taking on new patients. Dental care is free for children and has a significant impact on general health. The following website has helpful information on children's dental care <https://www.nhs.uk/live-well/healthy-body/taking-care-of-childrens-teeth/>

### **NCMP**

During this academic year, your child's class will also take part in the National Child Measurement Programme (NCMP) unless you choose to opt out. The NHS needs to have a good understanding of how children are growing across the country, so that the best possible health services can be provided for them. The information returned to the National Child Measurement Programme is anonymous, it does not include the child's name, date of birth or address; it is simply their height and weight. If you haven't already, you will receive a separate letter during your child's reception year with more details regarding this.

### **Hearing and Vision**

All children are entitled to an NHS funded vision assessment with a local Optician. It is recommended that children have regular eye tests at least once every 2 years. Reduced vision can have an impact on a child's learning and development. A sight test with an Optician is important because many abnormalities are treatable if discovered early but, if left untreated, can lead to vision loss and blindness. For more information visit [www.nhs.uk/childrens-eyes](http://www.nhs.uk/childrens-eyes) or [www.nhs.uk/service-search/Opticians/LocationSearch/9](http://www.nhs.uk/service-search/Opticians/LocationSearch/9)

If you have concerns about your child's hearing, please talk to your child's teacher so they can move them to the front of the class to better support their learning. You can contact the School Nursing team who can advise the best course of action. You may also seek advice from your GP. The sooner any hearing problem is found, the sooner you and your child will be able to get any treatment and support needed.

Signs of a possible hearing problem can include:

- Inattentiveness or poor concentration
- Not responding when their name is called
- Talking loudly and listening to the television at a high volume
- Difficulty pinpointing where a sound is coming from

- Mispronouncing words
- A change in their progress at school

### **Immunisations**

Is your child fully up to date with their immunisations? This is an ideal time to get your child up to date if they have missed any of their routine immunisations. If you are not sure, or to book an appointment for any missing immunisations please contact your GP surgery. If you would like to discuss any concerns or questions you have in relation to immunisations you can speak to a member of the school nurse team.

### **Medical Conditions in School**

If your child has a medical condition which may require the school to provide medicine, intervention or support; they would benefit from having a health care plan. Please talk to your child's school about their medical needs and if you or school require support to create this care plan, you can contact us via the 0-19 Admin Hub.

Finally, we have also created a new webpage which has health information aimed at children in Reception Year and this link can be found below for additional advice and support.

<https://sway.office.com/QCGyuSgoKUE6KCu5?ref=email>

### **Contacting Us**

A School Nursing team is allocated to each geographical area of Northamptonshire. Schools, parents, and young people can contact your team via:

- Phone: 0800 170 7055 (option 4)
- Live Chat: <https://www.nhft.nhs.uk/0-19>

We would also like to tell you about ChatHealth, which is a confidential text messaging service for parents to text a school nurse for help and advice. The contact number is 07507 329 600 and the service is available Monday to Friday 8.30am – 4.30pm (This service is also available to secondary age young people directly as well as parents).

Yours faithfully

Louisa Russell  
Head of 0-19 Children's Services
